

# Questions and Answers

## REQUEST FOR PROPOSAL

Real Estate Appraiser Services (August 29, 2005)

**October 7, 2005**

1. Please expand on or clarify what is desired for the website interface requested in Section 4.8 and Section 8.0.(g) of the RFP.

The AOC wishes to be able to access and download your work products via a website which is secure. Other than the foregoing, there are no particular requirements. The AOC wants to see what you intend to make available to us, whether it be your standard website or a customization that you feel will enhance the value of your services to us.

2. What, if any, is the significance to the filtering used in the property schedule related to the RFP?

We have attempted to filter out any properties where title to the property will not be transferred to the AOC (non- TOT properties). We are attempting to provide a list of properties that may require your services.

3. Is it anticipated that all 573 buildings shown on the schedule will need to be appraised based on the quarterly periods shown in the property schedule?

No. The quarterly periods shown on the Transfer list are our best estimates only, and the dates are subject to change.
